Our website address is: www.mondaycci.org

Every year presents an opportunity to build on our mission of transforming lives, strengthening communities, and redefining what is possible in community corrections. Fiscal Year 2026 has been a year of exceptional progress, measurable outcomes, and an unwavering commitment to evidence-based rehabilitation.

Since opening our doors in 1978 as Ohio's first public Community-Based Correctional Facility, MonDay has remained a leader in correctional treatment and community reintegration. While our history is one of innovation, our focus has never been on preserving the past. It has always been on shaping the future. Today, that commitment continues as we embrace new ideas, strengthen proven practices, and pursue excellence in everything we do.

This year, we increased our successful completion rate from 74.0% to 82.8%, representing an 8.8 percentage-point improvement over the previous fiscal year. More importantly, this means more individuals successfully completed treatment, developed healthier lifestyles, restored family relationships, secured employment, and returned to their communities prepared to build productive, law-abiding lives. Every successful graduate represents a safer community and a renewed opportunity for lasting change.

Innovation continues to define who we are. During FY26, MonDay was honored to receive the Clifford Skeen Innovation in Criminal Justice Award, recognizing our commitment to advancing evidence-based practices within community corrections. We also successfully completed the Bureau of Community Sanctions Program Review, achieving compliance with 100% of the Evidence-Based Practice Standards. These accomplishments reaffirm our commitment to accountability, quality, and continuous improvement.

Our clinical services continued to evolve through the expansion of Medication Assisted Treatment (MAT/MOUD), trauma-informed care, EMDR therapy, mindfulness-based interventions, peer recovery support services, and the implementation of MonDay's Coaching Model. Together, these initiatives reflect our belief that meaningful rehabilitation requires more than accountability. It requires individualized treatment, compassionate support, and the opportunity for every resident to discover their own capacity for change.

Behind every accomplishment is an extraordinary team of professionals who believe in our mission. Their dedication, compassion, and willingness to embrace innovation have created a culture where excellence is expected and continuous improvement is celebrated. I am deeply grateful for their commitment to serving our residents and our community every day.

As we look toward FY27, our vision extends beyond maintaining excellence. We intend to help define the future of community corrections by expanding integrated behavioral health services, advancing workforce development, strengthening academic and community partnerships, leveraging technology to improve outcomes, and continuing to invest in our staff. Most importantly, we will continue measuring success not simply by the number of people we serve, but by the number of lives transformed.

To our Facility Governing Board, Judicial Advisory Board, the Ohio Department of Rehabilitation and Correction, our community partners, and every member of the MonDay team, thank you for your trust, collaboration, and shared commitment to this important work. Together, we are proving that accountability and compassion are complementary principles that create stronger individuals, safer communities, and brighter futures.

The future of MonDay has never been brighter, and I am honored to lead this remarkable organization into its next chapter.

Sincerely,

Benjamin Sexton, MA, PhD(c), LPC, LICDC

Director

Here are just a few of the milestones Monday accomplished in FY26:

- Increased the resident successful completion rate from 74.4% in FY25 to 82.8% in FY26, representing an 8.8 percentage improvement.
- Received the Clifford Skeen Innovation in Criminal Justice Award in recognition of MonDay's leadership in evidence-based correctional programming.
- Successfully completed the Bureau of Community Sanctions Program Review, achieving compliance with 100% of Evidence-Based Practice Standards.
- Implemented MonDay's Coaching Model to strengthen staff-resident relationships, promote resident accountability, and enhance evidence-based case management.
- Expanded Medication Assisted Treatment/Medications for Opioid Use Disorder (MAT/MOUD) services to improve access to recovery-focused treatment.
- Enhanced trauma-informed clinical programming through expanded EMDR Therapy, Mindfulness-Based Interventions, and Peer Recovery Support Services.
- Strengthened vocational education, workforce development, and community employment partnerships to improve resident reentry outcomes.
- Implemented innovative technology solutions to enhance clinical documentation, quality improvement, and operational efficiency.
- Expanded academic and community partnerships to advance research, staff development, and evidence-based correctional practices.

Future Initiatives for FY27:

Looking forward to FY27 to work on developing and accomplishing several initiatives:

- Expand the Integrated Coaching Model and Recovery Oriented System of Care (ROSC) to further integrate treatment, recovery support, and reentry services.
- Develop a comprehensive workforce development strategy by increasing vocational certifications, apprenticeship opportunities, and employer partnerships.
- Continue modernizing facility infrastructure, security systems, and technology to improve operational efficiency and the resident experience.
- Expand specialized behavioral health programming for residents with co-occurring mental health and substance use disorders.
- Advance data-driven decision making through enhanced quality improvement, outcome measurement, and program evaluation initiatives.
- Strengthen staff recruitment, retention, leadership development, and professional training to support organizational excellence.
- Expand research collaborations and academic partnerships to evaluate innovative correctional practices and improve resident outcomes.
- Continue serving as a statewide leader in evidence-based correctional treatment through innovation, collaboration, and continuous quality improvement.
